## Employer Statement

Yanco Ltd recognises the importance of environmental protection and sustainability. It is our Policy to eliminate and or minimise any negative impact our production operation has upon the local and global environment and to promote supply chain sustainability throughout.

To achieve this, Yanco Ltd will endeavour to:

- Maintain and annually review an Environmental Policy, making this available to its employees, people acting on behalf of the Company and other interested parties.
- Comply with all relevant UK and European environmental legislation, and other standards to which we subscribe.
- Identify and assess all environmental aspects of the business and any significant impacts posed by our activities. Implement and maintain appropriate controls and management programmes to address these issues.
- Develop and improve operations and technologies to minimise waste and other pollution, evaluating operations and ensuring they are as efficient as possible. Dispose waste safely and responsibly.
- Provide suitable and sufficient resources to ensure the achievement of our environmental responsibilities and goals.
- Implement and maintain appropriate, documented environmental management systems.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Work together with our employees, business partners and the community to promote understanding, ownership and the achievement of good standards of environmental performance.
- Respond to any environmental excursions, complaints and incidents in a timely and effective manner.
- Establish environmental objectives and targets, monitoring programmes and review performance against these on a periodic basis to ensure compliance and continuous improvement
